

Go back

Wear it like a backpack and take the clean everywhere

CA BACK is Comac's backpack professional vacuum cleaner. It's light, handy and powerful, able to clean any type of surface, even the most difficult areas.

Convenience and freedom of movement are just some of the benefits provided by CA BACK. The compact design and the comfortable adjustable straps make this vacuum cleaner suitable for everyone, to make it the perfect ally for everyday cleaning operations.

The anatomic harness and the comfortable padded back support help to equally distribute the weight of the vacuum cleaner over the entire column, increasing comfort for the operator.

Powerful and light, CA BACK is suitable for the use in difficult environments such as: trains, buses, boats, airplanes, cinemas, theatres, stairs, offices, hotels and accommodation facilities.

CA BACK is available in two different versions:

CA BACK E

Electric version

Cord version, that allow the operator to move anywhere safely, without worrying about charging.

CA BACK B

Battery version

Battery version, for freely cleaning, even areas without electricity.

The advantages of CA BACK

- The high efficiency vacuum system allows you to obtain high cleaning performance over time
- A simple control allows you to select the right suction intensity to better deal with even the most difficult dirt situations
- The 4 stage filtration system guarantees the return of perfectly clean air into the environment and thanks to the HEPA 13 filter, available as optional, you can remove even the finest dust particles
- Thanks to the 5.7 litres collection bag, it can work continuously for long periods
- The telescopic hose, easy to handle and with a complex extension of 90 cm, ensure an easy and fast cleaning also in hard-to-reach areas like ceilings
- The low sound pressure level enable CA BACK to work even in the presence of people
- A convenient support at the bottom of the vacuum cleaner allows it to be stored anywhere when needed
- A handle located at the top allows you to move CA BACK anywhere and effortlessly
- CA BACK mains-powered is equipped with 15 m high visibility and anti-twist cable
- The wide range of accessories available, makes this vacuum cleaner extremely versatile

Li-ion battery

CA BACK equipped with lithium battery can work continuously for 60 minutes. Moreover, the possibility to make partial charging without waiting the complete discharge makes the vacuum cleaner performing during each use.

Thanks to the battery charger in just 30 minutes you reach the 50% of the battery capacity. The fast charge allows you to reuse CA BACK several times and significantly reduce the machine downtime.

Lightweight and easy to transport, lithium battery can be taken off and reassembled quickly even by less experienced operators, thus helping to reduce time and costs dedicated to maintenance operations. The tool-free battery quick release system allows it to be replaced easily in case of discharge to ensure constant performance throughout the entire cleaning operation.

A person wearing a grey t-shirt and a black harness. The harness has multiple straps and buckles. A circular inset shows a close-up of a buckle on the harness.

The **anatomic padded harness** is comfortable and versatile and makes the vacuum cleaner perfectly integrated with the operator

A circular inset showing a close-up of a black rectangular button with a white power symbol (a circle with a vertical line) and the text "ON/OFF" below it.

The **ON/OFF button** is handy and allow the operator to easily reach it during use

A circular inset showing a close-up of a black fabric belt with a large, dark, cylindrical brush-like attachment.

The **wearable tool belt** allows you to keep all the manual accessories close at hand, to choose the ideal vacuum nozzle
